

ARE YOU READY?

Under the new FCC law, businesses and organizations have until 2013 to make the switch to narrow banding for their two way radios and communications.

MOTOROLA

Authorized Two-Way Radio Dealer

ARE YOU READY?

Anyone currently licensed at 25KHz will need to be licensed at 12.5KHz or less. If your business or organization does not comply with the narrow banding law by 2013, your radio communications will be **severely compromised**.

____ carries a full range of Motorola radios and staffs professional radio repair technicians. We can ease you through this transition to ensure that you're ready for the switch.
