MOTOTRBO™
Professional Digital Two-Way Radio System

Introducing MOTOTRBO™

Professional Digital Two-Way Radio System. The next step in radio communication.

The future of professional two-way radio communications has arrived. Sharper essentials, enhanced features, and improved functionality give MOTOTRBO its exceptional value; and as the first digital two-way radio system specifically designed with the needs of professional organizations in mind, MOTOTRBO offers a customizable solution to business critical communications needs using licensed spectrum.

MOTOTRBO employs the latest digital technology to deliver increased capacity and spectrum efficiency, integrated data communications and clearer voice communications. Portable hand sets, mobile units, repeaters, and multi unit chargers make the two-way functionality of MOTOTRBO completely scalable.

**Experience the digital advantage!

MOTOTRBO solutions for Transportation:

- Location services featuring GPS are simple to deploy and less costly than third party GPS vendors
- Emergency signaling
- Can send critical data via Text Messaging services
- Provides clearer voice communications over a greater range than analog radio with Static and noise rejection
- Meets Military specs and IP57 for submersibility
